## SUMMARY OF QUALIFICATIONS

---

- [\*\*AWS SAA \(Certified Solutions Architect - Associate\)\*\*](#)
- Lifelong learner inspired by DevOps culture, principles, practices and tools
- Solid communicator cross-functional team collaborator & Individual Contributor
- Generalist, Ops and Infra-nerd. Enterprise Architect and Monitoring savant.
- Extensive experience as systems/technical architect, sysadmin, analyst and Ops specialist

## CLOUD, CONTAINERS, ERP, CRM, OPERATING SYSTEMS & DATABASES

---

- Cloud: Amazon Web Services Certified Solutions Architect
- AWS: IAM, EC2, EBS, EFS, S3, RDS, VPC design, AWS Console and CLI, Well Architected Framework, Shared Responsibility Model
- Containerization/Orchestration: Docker, Docker Swarm, Kubernetes, k8s Operators
- IaC and CI/CD: CloudFormation, Ansible, Terraform, Git
- Monitoring: Prometheus 2.x, Certified Zabbix Specialist/Professional, CloudWatch, IBM ITM
- Tracing and Observability: BPF/bpftrace, tcpdump, Jaeger, DTrace
- Linux: RHEL6-8.x/CentOS, Ubuntu 18, SUSE 9-11, zLinux, Slackware and other flavors
- HA: Auto Scaling, Pacemaker/Corosync, MariaDB: 10.X Multi-*Primary* replication
- Web: Apache, Nginx, HAProxy, ALB/ELB, Auto Scaling (k8s and AWS)
- DBA/RDBMS: RDS, *MariaDB*, *MySQL*, DB2, Oracle, MS SQL Server, BI and DW solutions
- Storage: S3, EBS, EFS, GPD, NetApp, Commvault, NFS, AFS, DFS, GPFS
- Data Stores/NoSQL: MongoDB, DynamoDB, etcd
- Reporting: Grafana, Graphite, Cognos, BIRT, Business Objects, SSRS, Actuate
- Enterprise: ERP (SAP Basis 4.x), CRM (Siebel 7.04)
- Other OSes: Solaris, AIX (certified ACP), HP/UX, MacOS

## SCRIPTING AND LANGUAGES

---

- Scripting: BASH, PERL, PowerShell, Korn
- Languages: Python (learning), YAML, JSON, HTML, JS
- APIs: AWS API Gateway, Zabbix, REST
- IDE/ISE: PyCharm, VSCode, Cloud9, Eclipse, MS PoSh, vi
- Compilers: gcc, xlc, cc, c++, make, gmake

PROFESSIONAL EXPERIENCE

---

April 2019 – Present

**Independent Consultant: Open Source Solutions Architect / Creative Possibilities Inc.**

- Consult with clients about IaaS and PaaS, cloud migration from on-prem legacy environments.
- On-site Linux/Ops/MariaDB/Docker and k8s training for technical and non-technical staff.
- Architect monitoring solutions like Prometheus/Grafana and Zabbix for Dev and Ops teams.

February 2015 - April 2019 NYS ITS

**Consultant: Open Source Solutions Architect / Enterprise Infrastructure SME**

- Led effort to replace legacy multi-platform monitoring infrastructures on (4100+) with a well-designed scalable Zabbix infrastructures (~3K+NVPS) saving ~\$1M/year
- Deploy Docker Swarm & *Dockerize* applications for development. Document and train teams
- Led adoption of IaC/GitLab for team code repository and deployments. Led automation of team maintenance tasks with Ansible playbooks. Write testing and monitoring scripts and plays with documentation.
- Led department in adoption of APIs and automating manual work and deleting tech-debt.
- Sharing DevOps values with executive team and guidance/coaching around key concepts.
- Architect, design and deploy/support/migrate large Zabbix 3.x/4.x (dev/prod).
- Lead DBA for all MariaDB infrastructures. Made all systems production-like.
- Designed implement and supported MySQL multi-*primary* replication for production (and dev)
- Automated backups and integrated DBs with supported Commvault solution.
- Architect and deploy Prometheus and Alertmanager for meta-monitoring and visibility. Created Grafana Infrastructures as *information radiators* so customers had self-service with KPIs/metrics
- Support all legacy infrastructures and help customer pivot to modern tools. Focus on learning, team collaboration, documentation, and coaching

February 2005-2015 NY State OFT / Office of Information Technology Services

**Consultant: Technical Architect: Enterprise Infrastructure Solutions Architect**

- Architect, build, support, and upgrade all IBM ITM monitoring infrastructures
- Led Performance team finding performance issues in NYS infrastructures
- Design, build and maintain visualization and reporting tools for customer self-service
- Led DBA DB2 support/DB2 DB Migration/Tivoli Data Warehouse, Cognos and BIRT
- Lead for Middleware (MQ) and DB monitoring and prod telemetry for Ops/NOC
- Backend scripts and APIs to automate ticket enrichment for ITSM
- Architectural design and implementation of ancillary enterprise monitoring solutions like APM (IBM ITCAM) an Omnibus/Netcool.

[@devnullid](https://github.com/michaelcolletti/resumes)

June 2005-2006 Endicott Interconnect, Endicott, New York

**Consultant SAP Basis Administrator / DB2 and Senior AIX Admin**

- Lead Basis prod and dev support of R/3 and BW/BI landscapes
- Knowledge transfer (SAP, AIX, DB2) for new Basis Consultant. Document
- Installs/Upgrades, Kernel Patches/Hotpacks, OSS/SAP Marketplace, Client Admin/Copy, Monitoring/CCMS, Performance, Batch/Spool, EarlyWatch, Corrections/STMS, SAPGUI
- Help the client transition to archiving (ArchiveLink) July 2001 – March 2005 IBM Global Services, Poughkeepsie, New York

**Consultant: Siebel Administrator: Sr. AIX Consultant/Siebel Admin**

- Infrastructure Architect for Siebel solutions that was the inception of IBM's first CRM customer portal, IBM PartnerWorld, a \$4Bn project.
- Led build team and trained members on Siebel, AIX, Windows & DB2.
- Scripting and customized telemetry to automate and monitor dev2prod process & infra
- Microsoft Certified Professional (MCP) and IBM Certified AIX Professional
- Integrated IBM processes/products into the Siebel stack (GPFS, AFS, JavaMail, orders)
- Design and automated Middleware (MQ) monitoring and self-healing
- Siebel 6.2.1-7.04 Call Center (AIX) Troubleshooting, Customization, Automation, EAI & EIM
- Reporting Tools Lead: Actuate Version (4-5) administration, SSO and LDAP.
- Led AIX/UNIX/DB2 consultation, training and performance tuning.

July 2000 – July 2001 IBM Global Services, Poughkeepsie, New York

**Consultant: SAP Basis Administrator: SAP Deployment for IBM Global Finance, Server Group**

- SAP R/3 Basis support. 3.x-46.x multiple mission-critical landscapes
- Installs/Upgrades, Kernel Patches/Hotpacks, OSS/SapNet, Client Admin, ALE Monitoring/CCMS, Performance, Batch/Spool, EarlyWatch, Corrections/STMS, SAPGUI
- Intercope FaxPlus integration and support and solution integration
- AIX/UNIX/DB2 consultation, training, performance tuning and monitoring
- IBM Content Manager and CommonStore support for SAP ArchiveLink

April 2000 – June 2000 Freetradezone.com/PartMiner.com, New York, New York

**Consultant: Sr. AIX Consultant/DB2 DBA**

- Lead AIX/UNIX admins, training and performance tuning
- Lead for DB2, consultation, training and performance tuning
- Design, implement and support development & production DB2 databases
- Support WebSphere and Apache 1.3.6, IHS and patch applies.

**EDUCATION**

---

State University of New York College at Purchase

*Bachelor of Arts in Sociology, Graduated with Honors.*

State University of New York College at Purchase

*SUNY-Purchase Music Conservatory: Major in Studio production (classical theory, jazz composition, and solfege)*
