OBJECTIVE

To build great things and solve tough problems in a generative learning space. Remote gigs preferred.

SKILLS

Automation, Open-source, Operations, Linux, Ansible, MariaDB, Prometheus, Zabbix, Docker and Swarm, Git, REST APIs, Unix, AIX, Solaris, RDBMS (DB2, Oracle), Legacy stacks, ERP, CRM, Monitoring

EXPERIENCE

OSS TECHNICAL ARCHITECT/STATE OF NY CTO

2016-2019 (Independent Consultant)

Design, build and support a highly scalable resilient and loosely coupled Open-source alternative to IBM Tivoli ITM and other products. Zabbix certified Specialist and Professional, specializing in designing open-source solutions. Legacy monitoring replacement saved \$1M/year in software and support costs.

TECHNICAL ARCHITECT/STATE OF NY

2010-2015 (Independent Consultant)

Production support of legacy stack of: DB2 10.x, IBM Tivoli ITM, ITCAM, Omnibus, BIRT, Netcool, Cognos, AIX, and ops support while experimenting with open-source components to replace the marketecture/monolith.

SAP BASIS ADMIN / SIEBEL ADMIN / TECHNICAL ARCHITECT/

CLIENT LIST CREATIVE POSSIBILITIES INC.

IBM, Dynax, BTX, Partminer, Endicott Interconnect/i3 Electronics, Ernst and Young, State of New York

EDUCATION

BACHELOR OF ARTS IN SOCIOLOGY / 1989

Purchase College

I never have been able to open up my Sociology shop but suspect the training has been helpful in other ways.
